

MUHAMMAD FAHAD TAJ

Associate Software Engineer

Lahore, Punjab, Pakistan | fchaudhary043@gmail.com | 0323-9596000 | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven MERN Stack and Next.js Developer with hands-on experience designing, developing, and deploying scalable full-stack applications. Proficient in React.js, Node.js, Express.js, and MongoDB with strong command over RESTful APIs, JWT authentication, and Redux for state management. Adept at building responsive, secure, and high-performance web solutions. Passionate about solving complex problems, writing clean code, and collaborating within Agile environments to deliver exceptional digital experiences.

TECHNICAL SKILLS

Frontend: React.js, React Native, Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Next.js

Backend: Node.js, Express.js, NestJS, BullMQ, RESTful APIs, JWT Authentication

Database: MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, Bitbucket, Docker, Postman, VS Code, Figma, MongoDB Atlas, Vercel

Other Skills: Problem-Solving, Agile Methodology, Debugging, Communication, API Integration

EXPERIENCE

Associate Software Engineer (Part-Time) | Ayshx

March 2026 – Present

- Working as a MERN Stack Developer on real estate-based web applications.
- Designed and implemented a Provident Fund feature for financial tracking.
- Developed full-stack modules using MongoDB, Express.js, React.js, and Node.js.
- Performed manual testing to ensure system reliability and bug-free deployment.

Software Engineer Intern | Integrity, Lahore, Pakistan

January 2026 – February 2026

- Gained hands-on experience in CMS and WordPress customization.
- Implemented responsive carousels/sliders using modern HTML, CSS, and JavaScript best practices.
- Converted web flow designs into pixel-perfect UI, ensuring accurate spacing, typography, and layout consistency.
- Learned and applied Shopify Liquid templating, including sections, blocks, and dynamic data rendering.

MERN | Next.js Intern | IIFA TECH, Lahore, Pakistan

August 2025 – November 2025

- Collaborated on the development of a Learning Management System (LMS) featuring user authentication, course management, and video modules.
- Built secure Node.js and Express.js APIs with JWT authentication, improving data integrity and system security.
- Implemented React Hook Form for efficient backend data handling, reducing validation errors by 25%.
- Engineered a full-stack E-commerce and News application using REST APIs and MongoDB for real-time data synchronization.

EDUCATION

BS Software Engineering | University of Management and Technology, Lahore

2021 – 2025

GPA: 3.1

PROJECTS

Amaanat – School Management SaaS | MERN Stack / Next.js

Building a full-stack SaaS platform connecting schools and parents, featuring role-based authentication, student management, and real-time communication between parents and school staff.

Real Estate | Company Project

Contributed to building the Provident Fund feature end-to-end and performed manual testing across the website to ensure reliability.

AI Content Creation | Next.js / OpenAI

Developed a full-stack AI content creation platform featuring user authentication, dashboards, and AI management modules.

Learning Management System (LMS) | MERN Stack / Redux / Cloudinary

[Live Demo](#)

Developed a full-stack LMS featuring user authentication, instructor dashboards, and course management modules.

Mini E-commerce Web App | MERN Stack

Built a full e-commerce platform with JWT authentication, CRUD operations, and a dynamic shopping cart.

Personality Trait Detection System (FYP) | *React / Python / Hugging Face / ML*

Developed an AI-powered app predicting user personality traits using NLP and the Big Five model with real-time analysis.

Emotion Detection System | *React / Node.js / CNN*

Built a CNN-based emotion recognition system integrated with a React web interface for real-time analysis.

Traveler React App | *React Router*

Designed a responsive travel planner with efficient component structure and smooth navigation.
